- Note:
1. Ensure WiFi network is on before connecting device.
 2. The WiFi uses 2.4GHz waveband and works best with a strong and stable WiFi signal.
 3. If WiFi connection fails, restart WiFi router and repeat steps 1 & 2.

Step 1 Turn on WiFi and connect to Internet.

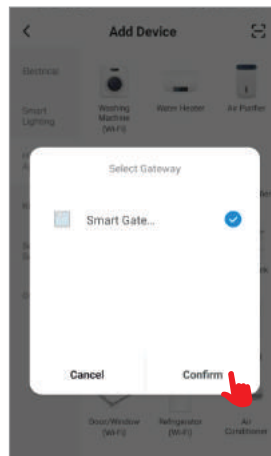

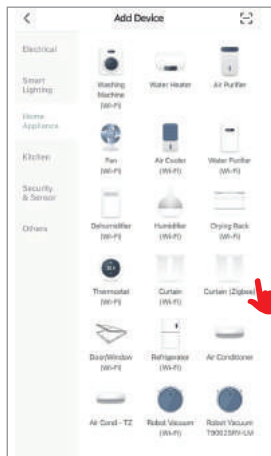

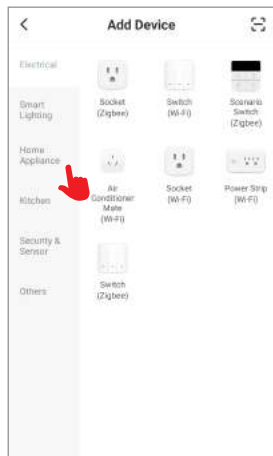

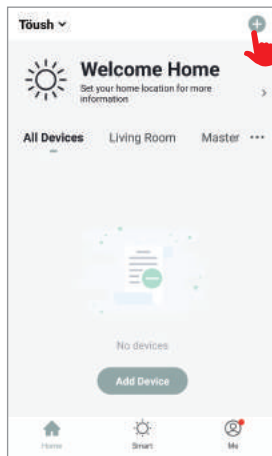

Step 2 If you do not have an account yet, kindly register by entering the required information.

Remark: Please ensure you have Zigbee Gateway before pairing your device.

Step 3 Open Töush App, click on the '+' symbol to add product.
Add Device > Home Appliance > Smart Curtain (Zigbee)

Step 4 Add 'Smart Gateway' and choose 'Confirm'.

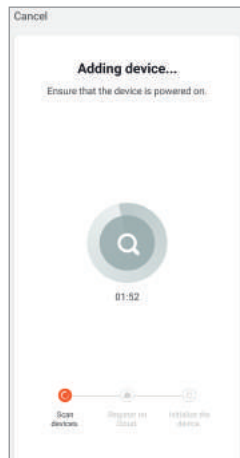

- Step 5** Reset motor. Press 'Confirm' if the indicator light is blinking.
If the indicator light is blinking rapidly, please skip the reset step.

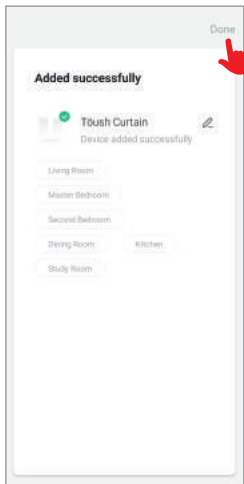

To Reset

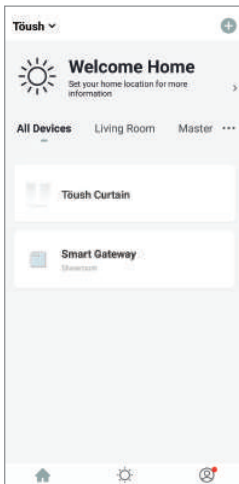

- Switch on the motor.
- Press reset button 3 times.
- Press and hold reset button for 5 seconds until indicator light blinks rapidly.
- Press 'Confirm' followed by 'Next'.

Step 6 After Curtain is added, press 'Done'.

Step 7 You can now view the connected product.

- Nota: 1. Pastikan rangkaian Wifi sudah diaktifkan sebelum menghubungkan peranti.
2. Wifi ini menggunakan jalur gelombang 2.4GHz dan berfungsi dengan sempurna jika isyarat WiFi kuat dan stabil.
3. Sekiranya sambungan WiFi gagal, cuba mulakan semula penghalang WiFi dan ulangi langkah-langkah 1 & 2.

Langkah 1 Sambungkan Wifi dengan internet.

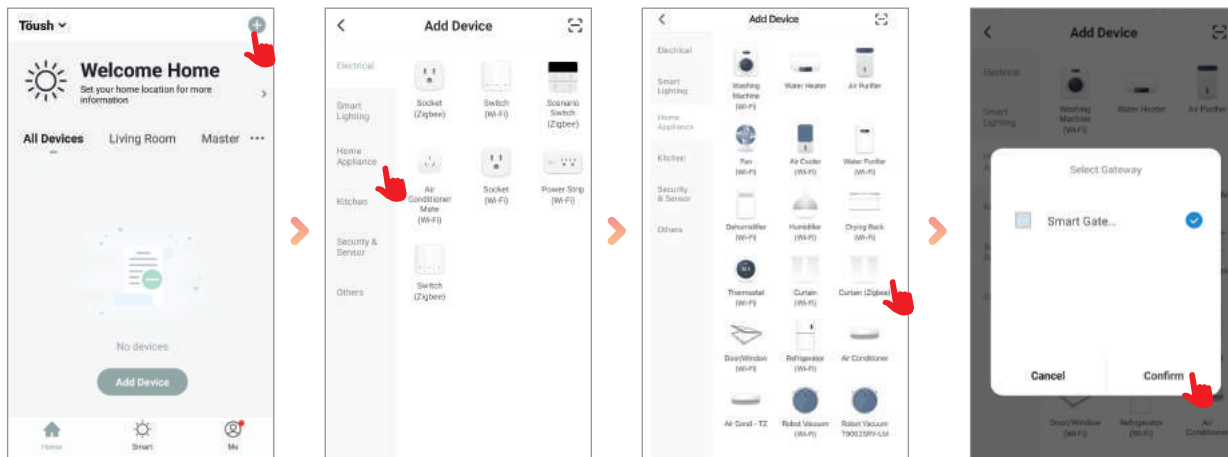

Catatan: Pastikan anda mempunyai 'Gateway Zigbee' sebelum memulakan penyambungan peranti.

Langkah 2 Jika anda belum mempunyai akaun, sila daftar akaun anda dengan mengisi maklumat yang diperlukan.

Langkah 3 Buka 'Toush App', klik pada simbol '+' untuk menambah produk.
Add Device> Home Appliances > Smart Curtain (Zigbee)

Langkah 4 Tambah 'Smart Gateway' dan pilih 'Confirm'.

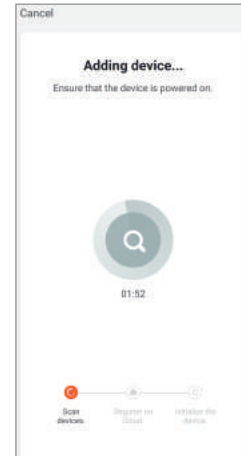

- Langkah 5** 'Reset' motor. Tekan 'Confirm' jika lampu indikasi berkelip.
Jika lampu indikasi berkelip dengan cepat, tidak perlu melakukan langkah 'reset'.

Untuk 'Reset'

- Hidupkan motor.
- Tekan butang 'reset' 3 kali.
- Tekan dan jangan lepaskan butang 'reset' selama 5 saat sehingga lampu indikasi berkelip dengan cepat. Tekan 'Confirm', diikuti dengan 'Next'.

Langkah 6 Selepas 'Curtain' telah ditambah, tekan 'Done'.
